ORGVUE SELECTED AS 'AWESOME' NEW TECHNOLOGY AT MAJOR HR TECHNOLOGY CONFERENCE

OrgVue has today announced that it has been selected as one of six companies to showcase its cutting edge technology at the [18th Annual HR Technology Conference and Exposition](#). The technology will be showcased during the Awesome New Technologies for HR session, taking place in Las Vegas on Sunday 18 October at 3:45 p.m. PDT.

Every year the Conference selects the most cutting-edge products and solutions from the vendor community which are disrupting and transforming the HR function. In one of the most popular and widely anticipated sessions of the HR Technology Conference, attendees will be introduced to these solutions through live demonstrations highlighting how each software is transforming the HR sector. OrgVue was selected from over 100 submissions and will be presenting alongside Bridge US, Great Hires, Kanjoya, One Model and TMBC.

Steve Boese, HR Technology Conference Co-Chair commented "The HR technology industry is characterized by constant change – and the companies that can keep up and introduce new solutions to address the challenges of the day are the ones poised for greatest success. The six companies featured in 'Awesome New Startups for HR' fully demonstrate the next generation of HR tech, offering cutting-edge technologies that make them stand out next to their more established peers. We look forward to seeing these technologies in action and seeing how they will change the way HR works."

"It is a real honour to have been selected" said Rupert Morrison, CEO at Concentra, the creators of OrgVue. "We are extremely excited to share our solution with HR leaders from across the country and discuss how HR can harness their organizational data to lead and drive business transformations and performance."

Executives attending the conference are invited to visit OrgVue at booth 2750 to find out more about the company's game-changing technology. To set up a meeting or stay in touch over the course of the conference email info@orgvue.com or follow us on Twitter @OrgVue #HRTechConf.

ENDS**Notes to Editors****About OrgVue**

OrgVue is the leading business transformation tool. It is providing HR, organisation design and effectiveness teams a flexible and intuitive platform for HR analytics, organisation design, workforce planning and transition management. Organisations love OrgVue because they can get new workforce insights, model business scenarios, and implement organisational change faster, better and with less

risk than traditional tools such as Excel and PowerPoint. OrgVue helps you design, transform and operate your organisation to deliver organisational effectiveness and performance, every day.
